**You need to practice anything that you want to improve. Our goal is to provide you with a variety of tools for your tool bag, so you can choose what works for your child and family.**

**Can't make it to one of our in-person workshops?  
Try some of these tips at home and make your own plan for a 2 degree change!**

2 Timothy 3:16 <sup>16</sup> *All Scripture is given by God. And all Scripture is useful for teaching and for showing people what is wrong in their lives. It is useful for correcting faults and teaching the right way to live.*

### **Here are some tips for helping your child & family dive into the Bible:**

**Model it:** You cannot pass on to your child something that you don't have. Schedule regular bible reading where your kids can see you. Sign up for a bible study or join a small group.

**Use as a guide:** Show your child how the Bible can be used by a guide when seeking wisdom.

**Keep it simple:** choose a verse to focus on weekly or daily.

**Be creative:** check out different translations, or bible apps. YouVersion Bible App, Wisdom Hunters App

**Don't Bluff:** It's okay to not know the answer to a question. It's an opportunity to show your child how to search for wisdom in his word and that God love us whether we have all the answers or not.

**Focus on basics:** teach your child how to study and understand God's word. Encourage them to follow simple steps to start: Read it; think about it; pray about it; apply it.

**Pray:** for you child to grow in love and understanding of God's word.
